

Paper: 1MA1/2H				
Question	Answer	Mark	Mark scheme	Additional guidance
10	344 580.48	P1	for a start to the process to find the initial investment eg $344\,605 \div 1.025$ oe (= 336 200) or for 1.025^3 (= 1.07689....)	[initial investment] must be clearly what they believe to be that and cannot be 344605
		P1	for complete process to find original investment, eg $344\,605 \div 1.025^3$ oe (= 319 078 to 320 265)	
		P1	for [initial investment] $\times 1.02^2 \times 1.035$ oe	
		A1	for answer in the range 343 587 to 344 581
