5 Here are the first four terms of a number sequence.

2 5 11 23

The rule to continue this sequence is

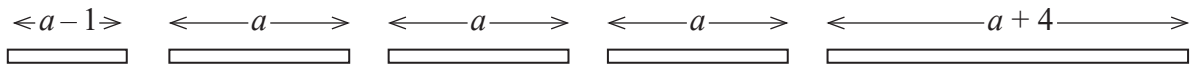

multiply the previous term by 2 and then add 1

Work out the 5th term of this sequence.

.....

(Total for Question 5 is 1 mark)

6 Here are five straight rods.

All measurements are in centimetres.

The total length of the five rods is L cm.

Find a formula for L in terms of a.
Write your formula as simply as possible.

$L = (a - 1) + a + a + a + (a + 4)$

1 mark
Add the five lengths

There are five a-terms; $-1 + 4 = 3$.

1 mark
Collect the like terms

$L = 5a + 3$

1 mark
Include L in the formula

$L = 5a + 3$

.....

(Total for Question 6 is 3 marks)
