14 On the grid, shade the region that satisfies all these inequalities.

$y > 1$ $x + y < 5$ $y > 2x$

Label the region **R**.

(Total for Question 14 is 3 marks)

Use dashed boundaries because all three inequalities are strict.

$y > 1$: above $y = 1$.

1 mark
Two boundary lines correct

$x + y < 5$: below $y = 5 - x$.

1 mark
All three boundary lines correct

$y > 2x$: above $y = 2x$.

1 mark
Shade their common region R
