13 Molly is given some information about triangle ABC.

The triangle is an isosceles triangle with

$BA = BC$ angle $BAC = 40°$

Here is Molly's sketch of triangle ABC.

(a) Write down two things that are wrong with Molly's sketch.

1 .....

.....

.....

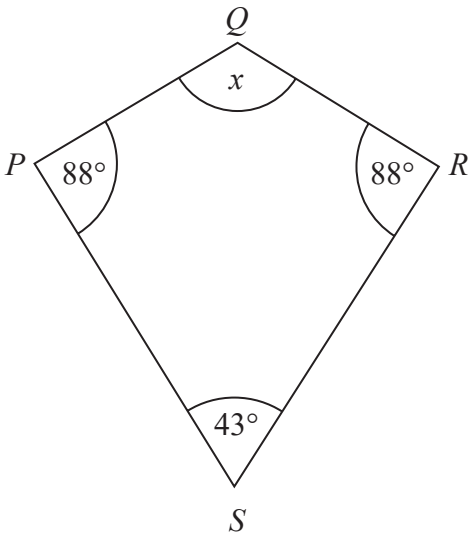

2 .....

.....

.....

(2)

(b) The diagram shows a kite *PQRS*.

Work out the size of the angle marked x.
Give a reason for your answer.

.....°

(3)

(Total for Question 13 is 5 marks)
