

Paper: 1MA1/3H				
Question	Answer	Mark	Mark scheme	Additional guidance
16	$2n^2 - 3$	M1	begins to work with 2 nd differences	$\begin{array}{ccccc} 6 & 10 & 14 & 18 & 22 \\ & 4 & 4 & 4 & 4 \end{array}$
		M1	identifies $2n^2$ as part of the expression eg gives the sequence 2, 8, 18, 32, ... or gives a quadratic expression which includes the term $2n^2$	A quadratic expression of the form $2n^2 + bn + c$ can be awarded the first 2 marks
		A1	oe
