8

Triangle **P** is reflected in the line $y = -x$ to give triangle **Q**.
Triangle **Q** is reflected in the line $x = -1$ to give triangle **R**.

Describe fully the single transformation that maps triangle **R** to triangle **P**.

(Total for Question 8 is 3 marks)

9 Martin truncates the number N to 1 digit.
The result is 7

Write down the error interval for N.

Truncating cuts off the digits after the 7.

The value can be 7, but it must be less than 8.

1 mark
Identify the bounds 7 and 8

1 mark
Include 7; exclude 8

$7 \leq N < 8$
