

Question	Answer	Mark	Mark scheme	Additional guidance
18	$3, -2$	M1	for method to find value of a , eg. finding 2 nd differences of 6 and dividing by 2 (= 3) or for method to solve two of the equations from; $a + b = 1$, $4a + 2b = 8$, $9a + 3b = 21$, $16a + 4b = 40$, $25a + 5b = 65$	
		M1	Substituting $a = "3"$ into one of the above equations, eg. $a + b = 1$	
		A1	cao
