

| Paper: 1MA1/3H |        |      |                                                                                                                                                           |                                                                                                |
|----------------|--------|------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------|
| Question       | Answer | Mark | Mark scheme                                                                                                                                               | Additional guidance                                                                            |
| 6              | (a)    | B1   | cao                                                                                                                                                       |                                                                                                |
|                | (b)    | M1   | for correct method, eg marking intercepts with $x$ -axis or one correct answer or both solutions given as a coordinate eg (0.6, 3.4) or (0.6, 0) (3.4, 0) | If answers are stated as coordinates, award M1 for both coordinates and M0 for one coordinate. |
|                |        | A1   | for answers in the ranges 0.55 to 0.65 and 3.35 to 3.45                                                                                                   |                                                                                                |
