Question	Answer	Mark	Mark scheme	Additional guidance
19 (a)	$\frac{27}{85}$	P1	for process to interpret information, eg 16 ÷ 20 (=0.8) **or** correct scale (2cm = 1 unit) on FD axis **or** suitable key eg 10 small squares = 1 car **or** use of area eg 20 × 8 (=160)	
		P1	for full process to find total frequency, eg 16 + (2.7 × 10) + (2.4 × 15) + (1.2 × 5) (=85)	
		A1	for $\frac{27}{85}$ oe	
(b)	18	M1	for full method to find number of cars travelling more than 40 mph, eg 2.4 × 5 + (1.2 × 5) **or** $\frac{1}{3}$ × (2.4 × 15) + (1.2 × 5)	
		A1	cao
