Question	Answer	Mark	Mark scheme	Additional guidance
21	62.1	P1	for process to use formula for volume of a pyramid to find the vertical height, eg $768 = \frac{1}{3} \times 12^2 \times h$ **or** $768 \div 12^2 \times 3$ (=16) oe **or** showing the required angle on a diagram eg with an arc	Check diagram for working
		P1	for process to find *BD*, eg $BD = \sqrt{12^2 + 12^2}$ or $\sqrt{288}$ or 16.9(7...) **or** for process to find midpoint of *BD*, eg $\sqrt{6^2 + 6^2}$ or $\sqrt{72}$ or 8.4(8…)	
		P1	for process to use tan eg $\tan\theta =$ "16" ÷ ["16.9(7...)" ÷ 2] **or** a complete alternative method to find an equation with the subject as sin *ABD* or cos *ABD*	
		A1	for answer in the range 62 to 62.2
