4		No with correct figures	P1	starts process e.g. starts to find volume by showing how to find a prism which is part of the shape, or shows how to find the complete cross-sectional area, e.g. (1 × 10 × 10) or (½ × 2 × 5) + (1 × 15) (= 20)

			P1	(dep P1) complete process shown to find the vol of the pool (= 200 m^3)
			P1	process to convert between litres and cm^3, e.g. 1 cm^3 = 100 000 litres or 200 000 litres
			A1	time taken, e.g. 40 000 sec, 666.66.. minutes, 11.11.. hours
			C1	comparison with correct comparable figures used, e.g. 36 000 < 40 000, 600 < 666.66…, or 11.11… (10 given)

Documented scheme clarification

1MA1_MOCK_SET_02_1H_Q4

Original source

scheme page 6, SHA256 c4b5f463294c1c340a3163b2ee21735838a1e9fd05ee5ae2b9ef5aed9d149ca9

Original wording

The scheme says convert between litres and cm3 and gives 1 cm3 = 100 000 litres.

Correction / interpretation

Use 1 m3 = 1000 litres. The pool volume is 200 m3 = 200000 litres, so filling at 5 litres per second takes 40000 seconds (about 11.1 hours), longer than 10 hours. The source scheme conversion line has incorrect units/numbers; its final time and conclusion are correct.

Reason

Original question supplies the cubic-metre conversion; volume and flow independently give the stated time.
