**18** The histogram gives information about the weights of some fish.

The number of fish with a weight between 400 g and 450 g is 7 more than the number of fish with a weight between 250 g and 300 g.

(a) Calculate the total number of fish represented by the histogram.

.....

**(3)**

(b) (i) Use the histogram to find an estimate for the median weight.

..... g

**(2)**

(ii) Give a reason why your answer to part (b)(i) is only an estimate.

.....

.....

**(1)**

**(Total for Question 18 is 6 marks)**
