21 Franco buys a house for £146 500
He sells the house for £158 220

Calculate the percentage profit Franco makes.

Profit = £158220 – £146500 = £11720

Percentage profit = 11720 ÷ 146500 × 100

= 8%

3 marks total
Find £11720
Divide by original
8%

..... %

(Total for Question 21 is 3 marks)
