| Question | Answer | Mark | Mark scheme | Additional guidance |
|---|---|---|---|---|
| 25 | 17.3 | P1 | for full process to find either angle eg (180 − 90) ÷ (2+3) ×2<br>**or** for 36 or 54 seen as an angle | May be seen on diagram<br>Condone correct values if incorrectly placed. |
| | | P1 | for a correct equation using trigonometry eg cos [*A*] = 14÷ *AB* | This must be shown as an equation with all four elements (eg cos, [*A*], 14, *AB*) present.<br>[*A*] could be 36 or any angle clearly and unambiguously identified as *A*.<br>This also applies to [*B*] with Sine. |
| | | P1 | (dep previous P mark) for rearranging their trigonometry equation to make *AB* the subject<br>eg (*AB* =) "14 ÷ cos 36" | |
| | | A1 | for an answer in the range 17.3 to 17.4 | If an answer is shown in the range in working and then incorrectly rounded award full marks. |
