Question	Answer	Mark	Mark scheme	Additional guidance
8	Yes with correct figures	P1	begins to work with proportion eg 20 ÷ 2 (=10) **or** 20 ÷ 5 (=4) **or** 2.38 ÷ 2(=1.19) **or** 5.60 ÷ 5 (=1.12)	Throughout monetary units not required; trailing zeros not needed. Can work in pence throughout
		P1	full process to find the cost of 20 pens **or** 20 folders eg. 20 ÷ 2 × 2.38 (=23.8) **or** 20 ÷ 5 × 5.60 (=22.4) **or** 2.38 ÷ 2 × 20 (=23.8) **or** 5.60 ÷ 5 × 20 (=22.4)	
		P1	full process to find total price **or** amount remaining eg "23.8" + "22.4" (=46.2) **or** 50 − "23.8" − "22.4" (=3.8)	
		C1	Yes with correct figures eg 46.2 **or** 3.8 (left)	'Yes' might be implied from working eg 46.2<50 or a statement that 3.8 is left, but 46.2 alone must also show an answer such as 'Yes' (may be written elsewhere). Working leading to 46.2 must be shown for this mark.
