Question	Answer	Mark	Mark scheme		Additional guidance
19	34 cm²	P1	for finding one area eg 8×8 (= 64) or $0.5 \times 3 \times 5$ (=7.5)	for first stage in working with Pythagoras eg sight of $3^2 + 5^2$ or $9 + 25$	
		P1	for a complete process to find the area eg "64" − 4 × "7.5" (=34)	for full use of Pythagoras eg $\sqrt{3^2 + 5^2}$ or $\sqrt{34}$ or 5.83…	Any figure used must come from a correct process
		A1	for an answer in the range 33.6 to 34		Can be awarded with incorrect units stated
		B1	(indep) for cm²		Can be awarded with an incorrect or absent numerical answer
