

Question	Answer	Mark	Mark scheme	Additional guidance
13	(a)	example	C1	example given eg 40, 80, etc.
	(b)	No with reason	C1	for No with reason Acceptable examples 80 and 88 are both in the sequence 80 is in the sequence and 85 is 5 more 24, 32, 80, 88, 85 is not in the 8 times table 85 is an odd number $8n+16=85$ so n is not a whole number. Not acceptable examples adding 8 each time will not lead to 85 (insufficient) it goes past 85 Yes
