Question	Answer	Mark	Mark scheme	Additional guidance
18	2.7 with statement	B1	for 179.5 or 180.5 or 180.4999...	
		B1	for 486.5 or 487.5 or 487.4999...	
		P1	for a correct process to find a bound for average speed, eg [upper bound of distance] ÷ [lower bound of time] where $487 <$ [UB of distance] ≤ 487.5 and $179.5 \leq$ [LB of time] < 180 **or** for [lower bound of distance] ÷ [upper bound of time] where $486.5 \leq$ [LB of distance] < 487 and $180 <$ [UB of time] ≤ 180.5	
		A1	(dep on all previous marks) for 2.695(2…) **and** 2.715(8 …) with both values clearly coming from working with correct values	Accept bounds truncated or rounded to at least 4 sig fig
		C1	for 2.7 from 2.695… and 2.715… **and** statement that both LB and UB round to 2.7
