

14 Here is a table of values for m and for r

m	2	6	10	14
r	20	16	12	8

Harry says,

“ r is inversely proportional to m because the values of r decrease by 4 and the values of m increase by 4”

(a) Is Harry correct?

You must give a reason for your answer.

(1)

y is inversely proportional to x^2

(b) Complete this table of values.

x	1	2	5	
y		50		2

(4)

(Total for Question 14 is 5 marks)
