4 At the end of 2017

the value of Tamara's house was £220 000
the value of Rahim's house was £160 000

At the end of 2019

the value of Tamara's house had decreased by 20%
the value of Rahim's house had increased by 30%

At the end of 2019, whose house had the greater value?
You must show how you get your answer.

Tamara: 20% of £220 000 = £44 000

New value = £220 000 – £44 000 = £176 000

Rahim: 30% of £160 000 = £48 000

New value = £160 000 + £48 000 = £208 000

£208 000 > £176 000, so Rahim's house.

1 mark
find a percentage change

1 mark
find a new house value

1 mark
£176 000 or £208 000

1 mark
Rahim with both values

(Total for Question 4 is 4 marks)
