20 Ami and Josh use a calculator to work out $\dfrac{595}{4.08^2 + 5.3}$

Ami's answer is 27.1115
Josh's answer is 271.115

One of these answers is correct.

Use approximations to find out which answer is correct.

595 ≈ 600, 4.08 ≈ 4 and 5.3 ≈ 5.

$\dfrac{600}{4^2 + 5} = \dfrac{600}{21}$

2 marks total
Use sensible approximations and calculate an estimate

21 is close to 20, and 600 ÷ 20 = 30.

27.1115 is close to 30, so Ami is correct.

1 mark
Select the answer supported by the estimate

(Total for Question 20 is 3 marks)

21 Work out $\dfrac{0.06 \times 0.0003}{0.01}$

Give your answer in standard form.
