8 Write these numbers in order of size.
Start with the smallest number.

$0.2\dot{4}\dot{6}$ $0.24\dot{6}$ $0.\dot{2}4\dot{6}$ 0.246

Expand the recurring blocks to compare:

$0.2\dot{4}\dot{6} = 0.246464...$ $0.24\dot{6} = 0.246666...$

$0.\dot{2}4\dot{6} = 0.246246...$ $0.246 = 0.246000...$

1 mark
Interpret the recurring dots

1 mark
Correct increasing order

$0.246 < 0.2\dot{4}\dot{6} < 0.\dot{2}4\dot{6} < 0.24\dot{6}$

(Total for Question 8 is 2 marks)

9 James and Peter cycled along the same 50 km route.
James took $2\frac{1}{2}$ hours to cycle the 50 km.

Peter started to cycle 5 minutes after James started to cycle.
Peter caught up with James when they had both cycled 15 km.

James and Peter both cycled at constant speeds.

Work out Peter's speed.

..... km/h

(Total for Question 9 is 5 marks)
