5	(a)		White = 36 Green = 6 Blue = 18	5	P1 for process to start to solve the problem, e.g. 600 ÷ 60, or 6 × 1.8 P1 for a complete process to find the total number of tiles (= 60) P1 for $\frac{3}{5}$ × 60 (= 36) P1 for (60 – 36) ÷ 4 A1 cao
5	(b)		Correct statement	1	C1 e.g. Fewer tiles may be needed
