

21 The diagram shows the lines OX , OY and OZ .

$$\vec{OX} = 5\mathbf{a} + \mathbf{b}$$

$$\vec{OY} = 3\mathbf{a} + 2\mathbf{b}$$

$$\vec{OZ} = 5\mathbf{b} - 2\mathbf{a}$$

Determine whether or not XYZ is a straight line.
You must show how you get your answer.
