

11 Here are some fractions.

$$\frac{9}{12}$$

$$\frac{6}{8}$$

$$\frac{18}{24}$$

$$\frac{10}{16}$$

$$\frac{15}{20}$$

One of these fractions is **not** equivalent to $\frac{3}{4}$

(a) Which fraction?

.....
(1)

(b) Work out $\frac{1}{12} + \frac{5}{6}$

.....
(2)

(Total for Question 11 is 3 marks)
