19

Rotate shape **A** 180° about (1, 0)

(Total for Question 19 is 2 marks)

A half-turn puts each vertex the same distance on the other side of (1, 0).

(−2, 3) → (4, −3); (−3, 4) → (5, −4)

(−3, 5) → (5, −5); (−2, 5) → (4, −5)

2 marks total
All four image vertices correctly joined
