**13** The diagram shows a circle and an equilateral triangle.

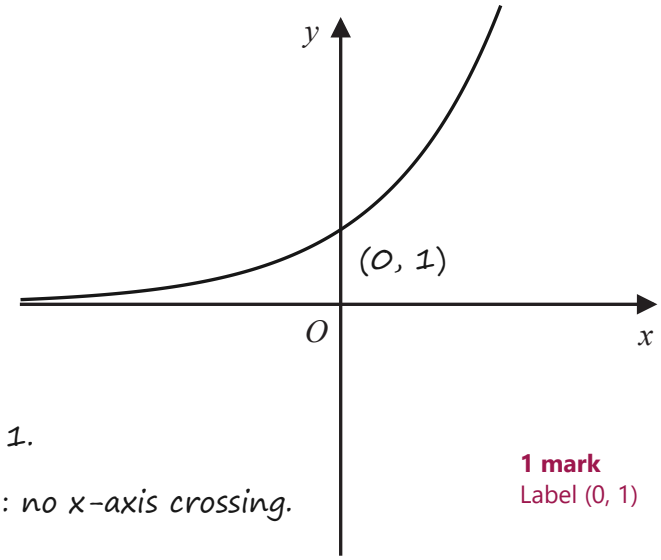

One side of the equilateral triangle is a diameter of the circle.
The circle has a circumference of 44 cm.

Work out the area of the triangle.
Give your answer correct to 3 significant figures.

..... $cm^2$

**(Total for Question 13 is 3 marks)**

**14** On the grid, sketch the curve with equation $y = 2^x$
Give the coordinates of any points of intersection with the axes.

**1 mark**
Increasing curve above the x-axis for all x

At $x = 0$, $y = 2^0 = 1$.

y is always positive: no x-axis crossing.

**1 mark**
Label (0, 1)

**(Total for Question 14 is 2 marks)**
