15 The equation of a circle is $x^2 + y^2 = 42.25$

Find the radius of the circle.

$r^2 = 42.25$, so $r = \sqrt{42.25} = 6.5$

6.5

1 mark
Take the positive square root

(Total for Question 15 is 1 mark)

16 There are only red counters and blue counters in a bag.

Joe takes at random a counter from the bag.
The probability that the counter is red is 0.65
Joe puts the counter back into the bag.

Mary takes at random a counter from the bag.
She puts the counter back into the bag.

(a) What is the probability that Joe and Mary take counters of different colours?

(2)

There are 78 red counters in the bag.

(b) How many blue counters are there in the bag?

(2)

(Total for Question 16 is 4 marks)
