20	41	P1 P1 P1 A1	for process to find the time taken, eg 1.45pm – 11.45 am (=2 hours) for process to find the total distance, eg 56 × “2” (= 112) for complete process to find distance between junctions, eg “112” – 43 – 28 cao	Any attempt to find the total time taken; could be shown on the diagram. Distance = time × speed is not enough without the relevant values
