Original source

scheme page 6, SHA256 d2b92eff881a96be17ccaf9d4a0c07fb2cd23205d917981c3b19101d7543b6c2

Original wording

The example list ends 80,88,94.

Correction / interpretation

The example list contains 94, which is not a multiple of 8. The next multiple after 88 is 96. Any two genuine multiples of 8 answer the question.

Reason

94/8 is not an integer;12times8=96.
