Original wording

The source answer table gives 0 for x=0.

Correction / interpretation

For y = x^3 - 3x + 1, the value at x=0 is 1. The correct table for x=-2,-1,0,1,2 is -1,3,1,-1,3; the curve passes through (0,1). The source table entry 0 is a misprint.

Reason

Direct substitution; the printed equation is authoritative.
