11 Here are two rectangles.

A

B

The length of rectangle **B** is 25% greater than the length of rectangle **A**.

The width of rectangle **B** is $\frac{3}{5}\times$ the width of rectangle **A**.

Find the fraction $\frac{\text{area of rectangle } \mathbf{B}}{\text{area of rectangle } \mathbf{A}}$

Give your answer in its simplest form.

.....

(Total for Question 11 is 3 marks)
