23 There are four types of cards in a game.

Each card has a black circle or a white circle or a black triangle or a white triangle.

number of cards with a black shape	:	number of cards with a white shape	=	3 : 5
number of cards with a circle	:	number of cards with a triangle	=	2 : 7

Express the total number of cards with a black shape as a fraction of the total number of cards with a triangle.
