

Paper: 1MA1/2H				
Question	Answer	Mark	Mark scheme	Additional guidance
14	11 – 19	P1	for drawing a tangent to the curve at time = 5	
		P1	for process to find the gradient, eg $70 \div 5$	Using their drawn tangent, eg change in $y \div$ change in x
		A1	(dep on 1 st P1) for answer in the range 11 - 19 m/s	Must come from gradient of a tangent.
