Question	Answer	Mark	Mark scheme	Additional guidance
10	14.14	P1	works out scale factor eg $(9 + 6) \div 6$ (= 2.5) **OR** for start of process to find angle *DBE* eg $\sin B = \frac{2}{6}$ oe	Note method can be carried out in either order
		P1	uses Pythagoras eg $6^2 - 2^2$ (= 32) or $\sqrt{32}$ (= 5.6...) **OR** calculates *AC* eg 2 × "2.5" (= 5) **OR** for complete process to find angle *DBE* eg $\sin^{-1}\left(\frac{2}{6}\right)$ (= 19.4...)	May be seen on diagram
		P1	complete process to find *CB* eg "2.5" × "√32" (= 10√2) **or** $\sqrt{(9+6)^2 - "5"^2}$ (= 10√2) **OR** uses trigonometry, eg 15 × cos "19.4..."	
		A1	14.1 to 14.15	If the answer is given within the range but then rounded incorrectly award full marks.
