29 The diagram shows a regular pentagon and a parallelogram.

Work out the size of the angle marked x.
You must show all your working.

At the parallelogram corner: 180° – 117° = 63°.

Regular pentagon exterior angle = 360° ÷ 5 = 72°.

Pentagon interior angle = 180° – 72° = 108°.

x = 108° – 63° = 45°.

4 marks total
Find 63°
Find 72°/108°
Subtract angles
x = 45°

.....°

(Total for Question 29 is 4 marks)
