14 A group of people went to a restaurant.
Each person chose one starter and one main course.

starter	main course
soup	lasagne
prawns	curry

the number of people who chose soup : the number of people who chose prawns = 2 : 3

Of those who chose soup,
the number of people who chose lasagne : the number of people who chose curry = 5 : 3

Of those who chose prawns,
the number of people who chose lasagne : the number of people who chose curry = 1 : 5

What fraction of the people chose curry?
You must show how you get your answer.

Soup = 2/5 of all; prawns = 3/5.

Curry among soup = 3/8; among prawns = 5/6.

Overall curry fraction = (2/5)(3/8) + (3/5)(5/6)

= 3/20 + 1/2 = 13/20.

4 marks total
Starter proportions
Curry proportions
Combine branches
13/20

.....

(Total for Question 14 is 4 marks)
