14 The pie chart shows information about how 540 students travel to a college.

Shane thinks that a quarter of the students walk to the college.

(a) Is Shane correct?
You must give a reason for your answer.

(1)

Raj says,

"The difference between the number of students who cycle to the college and the number of students who travel to the college by bus is less than 50"

(b) Show that Raj is correct.

(3)

(Total for Question 14 is 4 marks)
