19 Here is a distance-time graph.

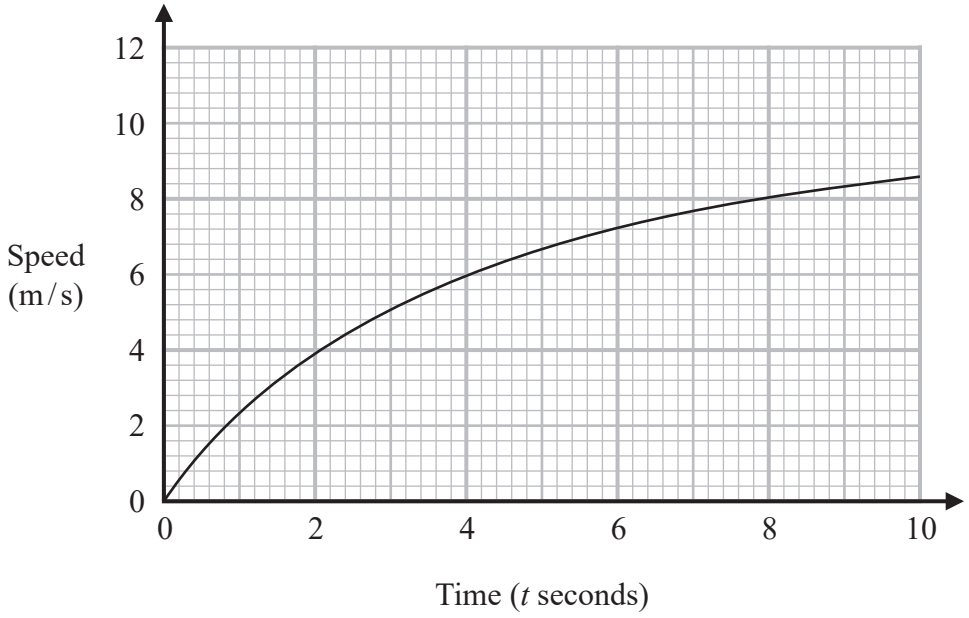

(a) Calculate an estimate of the gradient of the graph at time 5 minutes.
You must show how you get your answer.

(3)

(b) Describe what your answer to part (a) represents.

(1)

Here is a speed-time graph.

(c) Work out an estimate for the area under the graph between $t = 2$ and $t = 8$
Use three strips of equal width.

.....

(3)

(Total for Question 19 is 7 marks)
