Question	Answer	Mark	Mark scheme	Additional guidance
5 (a)	217	P1	for finding the length *AB* eg 64 ÷ 2 ÷ "3+1" (= 8) **or** *CB*	
		P1	for finding the length *CB* eg 3 × "8" (=24)	
		P1	for finding the area of the rectangle eg "24" × "8" (= 192)	
		P1	for using πr^2 eg π ("8" ÷ 2)^2 (=50.265...) **or** π ("8" ÷ 2)^2 ÷ 2 (=25.132...)	
		A1	for answer in the range 217 to 217.14	
(b)	Explanation	C1	for explanation eg radius bigger so area bigger (area of rectangle will stay the same)
