Question	Answer	Mark	Mark scheme	Additional guidance
12 (a)	Correct inequalities	M1 M1 A1	for 2 correct equations eg $y = -2$, $y = x + 1$ or $5x + 4y = 20$ for 3 correct equations eg $y = -2$ and $y = x + 1$ and $5x + 4y = 20$ $y \geq -2$ and $y \leq x + 1$ and $5x + 4y \leq 20$ oe	Use of any inequality signs to imply straight line relationships
(b)	Statement	C1	for statement eg Line drawn is not $y = x$
