|---|---|---|---|---|
| 3 | | 29 | P1 | for process of forming an expression for one area, egg $2.5 \times 4x$, $7(2x - 3)$ |
| | | | P1 | for process of forming an equation, e.g. $10x = 7(2x - 3)$ or $10x = 14x - 21$ |
| | | | P1 | for complete process to solve the equation to find the value of $4x$ or the value of $x$ |
| | | | A1 | for $4x = 21$ or $x = 5.25$ oe |
| | | | B1 | ft using found value of $x$ or $4x$ in perimeter of **B**: $4x + 8$ |
