

22 Joe went on holiday to Spain.

His flights cost a total of £320

Joe stayed in an apartment for 3 weeks.

The apartment cost 560 euros each week.

Joe hired a car for 15 days.

The car hire cost 20.16 euros each day.

The exchange rate was $\text{£}1 = 1.12$ euros.

(a) Work out the total cost, in pounds, of the flights, the apartment and the car hire.

£.....

(4)

The exchange rate was £1 = 1.12 euros.

- (b) If there had been more than 1.12 euros to £1, how would this affect your answer to part (a)?

.....

.....

.....

(1)

(Total for Question 22 is 5 marks)
