

6	Yes and accurate figures	P1	for a first step towards solution, eg. $2 \times 24.50 (= 49)$ or $24.50 + 18.90 (= 43.4(0))$ OR $70 - 24.50 (= 45.5(0))$ or $70 - 18.90 (= 51.1(0))$	
		P1	for a complete process to find figures to compare eg. $2 \times 24.50 + 18.90 (= 67.9(0))$ or $70 - (2 \times 24.50 + 18.90) (= 2.1(0))$	
		C1	for correct conclusion with accurate figure(s) eg. Yes with (£) 2.1(0) or (£) 67.9(0)
