

26 Kabita has two bags.

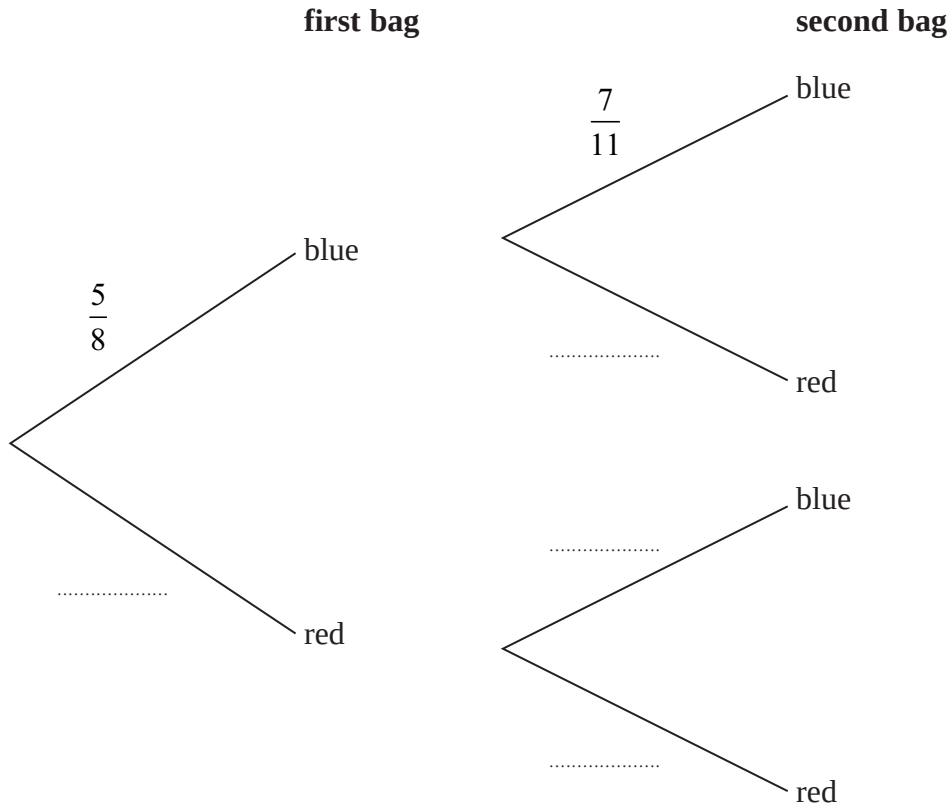

In the first bag there are 5 blue discs and 3 red discs.

In the second bag there are 7 blue discs and 4 red discs.

Kabita takes at random a disc from the first bag.

She then takes at random a disc from the second bag.

(a) Complete the probability tree diagram.

(2)

(b) Work out the probability that Kabita takes two red discs.

(2)

(Total for Question 26 is 4 marks)
