11 The graph of $y = f(x)$ is drawn on the grid.

(a) Write down the coordinates of the turning point of the graph.

Minimum point: x = 1, y = -3.

1 mark
Coordinates of the turning point

(1 , -3)

(1)

(b) Write down estimates for the roots of $f(x) = 0$

Read where the curve crosses the x-axis.

1 mark
Both roots within the given tolerances

-0.75, 2.75

(1)

(c) Use the graph to find an estimate for $f(1.5)$

At x = 1.5, read down to the curve: y ≈ -2.8.

1 mark
Read the y-value at x = 1.5

-2.8

(1)

(Total for Question 11 is 3 marks)
