11 You can use this graph to change between inches and centimetres.

(a) Change 74 cm to inches.

Read across from 74 cm, then down: about 29 inches.

1 mark
Accept a graph reading from 29 to 30 inches

29 inches

(1)

Daniel's height is 6 feet 3 inches.

1 foot = 12 inches

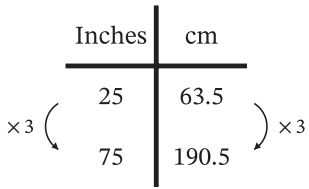

(b) What is Daniel's height in centimetres?

6 feet 3 inches = 6 × 12 + 3 = 75 inches

1 mark
Convert the whole height

On the graph, 25 inches is about 63.5 cm.

1 mark
Scale a graph reading

Daniel is about 190.5 cm tall.

1 mark
Accept 186 to 195 cm

190.5 centimetres

(3)

(Total for Question 11 is 4 marks)
