23 Harley's house has a value of £160 000 correct to 2 significant figures.

(a) (i) Write down the least possible value of the house.

Rounding step £10000; half £5000.

£160000 − £5000 = £155000

1 mark
Lower bound included

£ 155000

(1)

(ii) Write down the greatest possible value of the house.

Upper bound: £165000, which is excluded.

To the nearest penny: £164999.99

£ 164999.99

1 mark
Greatest value when stated in pennies

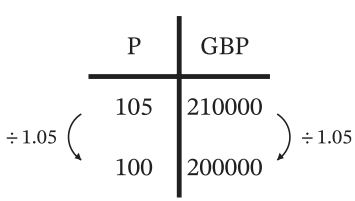

(1)

The value of Rita's house increased by 5%.
Her house then had a value of £210 000

(b) Work out the value of Rita's house before the increase.

After the rise, £210000 represents 105%.

P = percentage; GBP = pounds.

1 mark
Scale 105% back to 100%

Original value = £210000 ÷ 1.05 = £200000

£ 200000

1 mark
Correct original value

(2)

(Total for Question 23 is 4 marks)
