14 Here are the marks 20 students got in a French test.

76	82	84	69	80	64	70	81	75	91
87	67	80	70	94	76	81	69	71	77

(a) Show this information in a stem and leaf diagram.

Sort by tens, then write the units digits in increasing order.

Keep repeated marks as repeated leaves.

Key: 6 | 4 means 64 marks.

1 mark
Include an unambiguous key

6	4 7 9 9
7	0 0 1 5 6 6 7
8	0 0 1 1 2 4 7
9	1 4

2 marks total
Correct ordered leaves
with every value included

(3)

One of these students is going to be chosen at random.

The pass mark in the French test is 71

Omar writes,

The probability that this student failed the French test is $\frac{1}{4}$

Omar is wrong.

(b) Explain why.

Six failed: 64, 67, 69, 69, 70 and 70 are below 71.

One quarter of 20 is 5, but 6 students failed.

1 mark
Identify six failures

1 mark
Compare with five (one quarter)

(2)

(Total for Question 14 is 5 marks)
