17 ABC is an isosceles right-angled triangle.

The area of the triangle is 162 cm^2

Work out the value of x.

Area = ½ × base × perpendicular height

½ × 3x × 3x = 162

1 mark
Set up a complete area equation

4.5x² = 162

÷4.5 ÷4.5

x² = 36

1 mark
Simplify to an equation for x^2

x = √36 = 6 (a length is positive).

1 mark
Take the positive square root

$x =$ 6

(Total for Question 17 is 3 marks)
